Over the last five years, Medical Tours Costa Rica has managed offshore health care services for over 2,000 patients from the United States, Canada, the United Kingdom, and many other countries around the world.

The company arose from a real need for quality medical, dental and cosmetic surgery procedures at reasonable and affordable prices in the United States, Canada, and Europe. The costs of health care are continuously increasing, as is the list of people who do not have health care insurance, as more and more people cannot keep up with rising insurance costs.

Costa Rica is a lush, tropical, tourist-friendly destination has Joint Commission International accredited private hospitals, premium medical centers with state-of-the-art equipment, well-educated and highly-trained doctors, dentists, cosmetic surgeons, and other health care professionals.

Hospital Clinica Biblica is an established, experienced, world-class medical institution, founded in 1929. The hospital has state-of-the-art equipment, modern facilities and first-rate health care services. Moreover, it is a Joint Commission International accredited medical institution, which means, that it is held to the highest standards in the industry regarding medical care and procedures.

The medical center has an extensive team of qualified specialists and surgeons, most of whom are bilingual and have graduated or received extensive training from North American and European institutions. In fact, communication will not be an issue since the doctors you will deal with through Medical Tours Costa Rica speak English.

In addition to the above, and in order to make your experience as a patient as relaxing and stress-free as possible, you will receive VIP personalized services that extend far beyond the usual hospital care. Medical Tours Costa Rica provides each prospective patient is with a personal Health Care Assistant (HCA) who works one-on-one to coordinate an all-embracing, comfortable, and easy service experience.

Package Price Details for Hospital Clinica Biblica

All packages include:

- Private transportation (1 airport and 3 hospital round-trip transfers)
- Hospitalization if needed (*companion can stay at no extra cost)
- Doctor team fees (surgeon and anesthesiologist)
- Pre-operative exams (blood tests, ECG and an evaluation by an internist)
- Post-op doctor's appointment

*The price quote does not include the costs incurred in case of medical complications, which although rare, can occur and therefore could increase the final price.

**Please ask for further details on the medical travel insurance fees for bariatric surgeries.

***Note that the hospital accepts payment by credit card, wire transfer or cash.

Deposit: We are strictly implementing a policy asking patients to pay a 15% deposit once they confirm a date for their procedure. If for any reason the patient decides to cancel or postpone the procedure within 7 days of the scheduled date, the 15% deposit will be refunded less an administrative fee of \$250 USD.
