

Patient Financing That Simply Works

A financing solution that works for
you - not the other way around.

Consider the last 15 patients that went unapproved for financing or simply could not afford treatment. How much revenue did your practice miss out on?

Get Started Today!

AMS Patient Financing Offers:

- Flexible solutions for a variety of patient needs and situations.
- A solution that helps your patients get the treatment they need and keeps business in your clinic.
- A simple and secure process - one page to fill out and rapid decisions.

We have one basic philosophy as it relates to fees :

Why should a health care provider have to pay a fee to a finance company for a patient who needs a loan to pay for their services?

We offer...

Tailored and flexible finance options to any practice seeking to offer financing to their patients 100% Pay-out on every closing!

The bottom line is simple :

You quote your best cash price for services, and submit an application. We then process the application and send you an approval with a 100% pay-out of that price.

We are often asked what are the Interest Rates and Terms a patient will be offered by the lenders. That answer is simple; they will get the best deal for which they qualify!

Revolving lines of credit :

Rates ranging from 5.9% to 27.9%. However, they usually offer 0% introductory terms for up to 18 months. The standard Care Credit deal is a widely used example of this.

Fixed Installment Contracts:

Most installment contracts have shorter terms (up to 48 months) with a fixed interest rate no higher than 18% and as low as 8%.
